

## BY AUTHORITY.

## NOTICE.

Office of the Board of Health,  
Honolulu, August 21, 1896.

Public attention is called to the following Sections of an Act entitled "An Act to Provide for keeping Records of Births, Deaths and Marriages," approved June 3, 1896:

## REPORTS TO REGISTRAR OF BIRTHS.

Section 12. It shall be the duty of the father of each and every child born in the Republic of Hawaii, or if the father be absent from the country at the time of the birth, or not living; or if the child be illegitimate, then it shall be the duty of the mother of such child, within thirty days after the birth of such child to notify the Registrar of Births, Deaths and Marriages of the District in which such birth takes place, of the date of birth, sex and name of such child, if named; the names of the parents of such child, whether it is legitimate or illegitimate, and the locality of the birth.

It shall also be the duty of every physician who shall attend, or be called upon in connection with the birth of any child in the Republic of Hawaii, within thirty days after such birth, to report such birth and the other facts relating to such child in this Section above set forth.

## REPORTS TO REGISTRAR OF DEATHS.

Section 13. It shall be the duty of every owner of any building or premises in or upon which the death of any person shall take place in the Republic of Hawaii, to immediately report said death to the Registrar of the District in which it took place, giving so far as he is able to do so the name, sex, age, cause of death, nationality, last place of residence of the deceased and the locality in which the death took place; or if the building or premises in or upon which said death takes place is leased or occupied by some one other than the owner thereof, then it shall be the duty of the lessor or occupier of said building or premises to immediately report to the Registrar all of the facts in this section hereinbefore set forth.

Section 14. It shall be the duty of every Minister of Religion who shall officiate at any burial of any deceased person, and of every undertaker or other person who attends to the burial of any deceased person; and of every hospital officer, health agent; and of every relative of any deceased person, to give to the Registrar of the District in which such death has taken place, all the information within their knowledge concerning any deceased person, if and whenever said Registrar shall request the same.

## REPORTS TO REGISTRAR OF MARRIAGES.

Section 15. It shall be the duty of every person legally authorized to perform the marriage ceremony, who shall at any time perform the marriage ceremony, to immediately report each marriage to the Registrar of the District in which such marriage takes place and state to him the full names, the age, the residence, the nationality, and the full names of each of the parents of each of the parties to such marriage.

## PENALTIES.

Section 20. Any person who shall violate or who shall fail to observe or perform any of the requirements of this Act, or any requirement of any rule or regulation made and published by the Board under or by virtue of this Act, shall upon conviction of such violation or failure before any District Court, be fined for such violation or failure a sum not to exceed Fifty Dollars.

By order of the Board of Health:

C. B. REYNOLDS,  
Executive Officer.

The Evening Bulletin,

DANIEL LOGAN, Editor.

MONDAY, AUG. 24, 1896.

A man operating a magic lantern at a cyclorama exhibition in Sydney was killed by an explosion of chemicals that he was mixing in a mortar. It appears that he pounded potash with magnesia and gunpowder, while he should have pounded it by itself. The mixture is one that is "used for scenic effects," it is explained, "and is not known in the use of the lantern, about which with ordinary care there is very little risk." Still, if there is any danger, it would be proper for the authorities anywhere to see that persons handling explosives at public shows should know their business.

Dr. Holmes of Brooklyn would richly earn a pension from the Hawaiian Government if he succeeded in curing the lepers of this

country within two—yes, within ten years—upon financial considerations alone, apart from the tremendous service to suffering humanity, the latter of which would make the whole world his debtor. If, however, sulphurous fumes constitute the essential element of the cure Dr. Holmes claims to have discovered, then kind Mother Nature has provided it from her subterranean pharmacy at the volcano of Kilauea upon this very suffering group. Indeed, it is a wonder that our health authorities have never tested the virtues of the natural hot sulphur fountains of Hawaii upon leper patients. Possibly these phenomena contain proof of the saying that there is no ill afflicting the human race which is without its antidote, discovered or undiscovered.

## H. S. TREGLOAN DEAD.

His Funeral Takes Place from the Family Residence This Afternoon.

H. S. Tregloan, an old and esteemed merchant of this city, died yesterday afternoon after a lingering illness. His complaint was a complicated stomach trouble which would not yield to treatment owing to his advanced age.

The deceased was about 74 years of age, a native of the county of Cornwall, England, and came to Hawaii about seventeen years ago, since when he has been engaged in business at the present store on the corner of Hotel and Fort streets.

Mr. Tregloan was a man who had many friends and there are none who will not speak well of him. He was formerly a member of the Central Union church but joined the Methodist congregation when the new church was established and at the time of his death was one of its trustees and prominent in its affairs. Mr. Tregloan leaves a widow and two sons in the islands and two sons and two daughters in the United States. The funeral will take place this afternoon from the family residence, H. H. Williams will have charge of the arrangements.

## Tonight's Organ Recital.

Following is the program arranged for the organ recital and concert at Kaumakapili church this evening, as arranged by Wray Taylor. No admission fee will be charged and everybody is welcome:

## PROGRAM.

Holt, B. L. Marx and Wray Taylor.  
Song—Selected.....J. B. Alexander  
Gavotte—"Summer School".....Taylor  
Fantasia.....Arranged  
Wray Taylor.

## HAPPENINGS AT WAIANAE.

Continued from 1st Page.

actual daily need of one and those who have the matter in hand should either build it or give someone else a chance. Many of the residents would board at the hotel in preference to keeping house during the heated term. At present there is no place where anyone can stay over night without trespassing on friends who have no room to spare. The Waianae people want that new hotel built right away.

A large picnic party from Honolulu spent the day under the trees near Manager Ahrens' house yesterday, going and returning in the directors' private car.

## Feed the Nerves

Upon pure, rich blood and you need not fear nervous prostrations. Nerves are weak when they are improperly and insufficiently nourished. Pure blood is their proper food, and pure blood comes by taking Hood's Sarsaparilla, which is thus the greatest and best nerve tonic. It also builds up the whole system.

Hood's Pills are the favorite family cathartic, easy to take, easy to operate.

Singers lead the world. Over 13,000,000 made and sold. Highest awards at the World's Columbian Exposition for excellence of construction, regularity of motion, ease of motion, great speed, adjustability, durability, ease of learning and convenience of arrangement. B. Bergersen, agent, King and Bethel streets.

## Timely Topics

ON  
CREAM SEPARATORS.

A short time ago we introduced the De Laval Cream Separators to the notice of the public through this column but we were compelled to change our advertisement in a few days as the demand created by it soon exhausted the supply of Separators we had on hand.

We have just received a fresh supply and again call attention to their merits.

Have you one or more cows? If so, what is your purpose in keeping them? Is it your object to get the most money from them, with at same time some comfort and satisfaction? Are you doing it?

Have you kept pace with the improvements in dairy apparatus? Have you ever stopped to consider the benefits of the Cream Separator,—not to the world, not to your neighbor, but to you personally and individually?

If not, you cannot do anything better, and the sooner the better. Everybody now understands the principle of centrifugal creaming. Gravity causes the cream to rise in the old way. The separator simply adds centrifugal force to gravity. It merely uses two natural forces instead of one only. It effects the complete separation of cream from milk, which is not possible in any other way, and in the most all around practical manner.

The De Laval Cream Separators are in almost universal use the world over. They have revolutionized dairying methods. The State Colleges and Experiment Stations all use and advocate them. More than 85,000 have been sold. All practical creameries have long used them. Progressive dairy farmers do so in all sections. There must be many users around you. No user of a De Laval machine ever did otherwise than endorse it.

The De Laval "Baby" or Dairy Cream Separators are now made in six different styles and sizes. They range in capacity from 150 lbs. per hour to 700 lbs. per hour. Capacity means separating capacity per hour. They are made for all requirements from the household buying its milk, to the dairy of from one cow to one hundred.

The De Laval machines are Hand machines. They are designed and constructed for hand use. Women and children run them. They are used almost wholly in such way. Still they may be attached to any sort of light power, from dog tread to engine.

We have also a smaller type of the same machine, which is designated as the "Humming Bird," especially intended for household use. It is very small, very compact, extremely simple, easily understood and cared for, safe and durable. It possesses every advantage to be found in any of the larger "Alpha" machines.

Samples and prices of these machines at

Why  
Hang  
On

to your type printed visiting card, when it is so easy to get the correct thing right at home.

No card but an engraved one is acceptable; others are considered shoddy and should not be used.

We know the correct thing, and any work turned out by us, will place you right in the swim.

Every effort is being made by us to keep this work at home, and if a strict adherence to San Francisco prices, combined with good clean work is any inducement to place orders here, we will get all your work from now on.

Bear in mind that we are not trying to meet the cut rates of Eastern Department stores for inferior work; but are doing good work, using the very best of material, and adhering closely to ruling rates in San Francisco.

Nor is the work confined to Cards alone, but Wedding and Society Stationery, Business Cards, Announcements, Bill Heads for Professional men, Embossing, and the general run of work coming under that head, have the same careful attention.

You may not need anything now, but it is well to bear in mind when the time comes, and save the expense of sending away for it.

H. F. Wichman

RAMBLERS...

\$75.00

If you are thinking of getting a Bicycle, now is the time to get one while they last. This offer of RAMBLERS at \$75.00 is not a cut in price, so don't wait expecting to see the price come any lower. We are offering 1895 wheels at this price and there are but a few left. This wheel is fitted with the

Great G. & J. Tire

which has proven so satisfactory in this land of the

Kiawe Thorn

We also have a stock of the 1896 wheels both ladies and gents which we are offering at a low figure and on easy terms. Come in and have a look at our wheels and satisfy yourself that we are in the Bicycle Business.

## An Investment

Stop and think how many Nickles and Dimes you might save had you a wheel. A ride to Wai kiki is not only a pleasure but a sure saving of health and strength. You will find new vigor by the use of muscles never before brought into use.

WHEELS THAT LAST AND DON'T COST YOU THEIR VALUE FOR REPAIRS.

W.W. DIMOND'S

Do you remember when you ate white bait in New York or London what slices of brown bread cut very thin were served with the fish? It was buttered too. When you were eating the delicious bit you wondered how the chef managed to cut the bread so thin without going through to the other side. It was a secret then; not now. He used a "Christy," an improvement on the "Claus" bread knife in many ways. Finely finished wooden handle, saw edge as keen as a razor and a good thing all 'round. We sell them for a half

Pride of the Kitchen is justly named, because the cook who takes pride in keeping his kitchen clean uses it. Better than Sapolio, because it will not scratch—it cleans without defacing.

Escalloped oysters or fish is as dainty a dish as a king would care to sit down to, if properly prepared and served. The correct way to put either fish or oysters, cooked in this way, is in shells. We have the genuine article grown expressly and which we sell at a dollar a dozen.

Walker's self pulling cork screw, draws the cork and cuts the wire at the same time without an effort. We get rid of them at 35 cents each. That's the way we get rid of the best lawn mower on the islands—sell them at \$7.50.
